DESCRIPTION AND PURPOSE OF ITEM

This item identifies those bridges that do not function properly or adequately due to the alignment of the approaches.

Code the rating based on the adequacy of the approach roadway alignment. It is not intended that the approach roadway alignment be compared to current standards but rather to the existing highway alignment. This concept differs from other appraisal evaluations. The establishment of set criteria to be used at all bridge sites is not appropriate for this item. The basic criteria are how the alignment of the roadway approaches to the bridge relate to the general highway alignment for the section of highway that the bridge is on.

The individual structure is to be rated in accordance with the general appraisal rating guide given with the composite discussion of Items 67-72 in lieu of specific design values.

The approach roadway alignment will be rated intolerable (a code of 3 or less) only if the horizontal or vertical curvature requires a substantial reduction in the vehicle operating speed from that on the highway section. A very minor speed reduction will be rated a 6, and when a speed reduction is not required, the appraisal code will be an 8. Codes may be selected between these general values. For example, if the highway section requires a substantial speed reduction due to vertical or horizontal alignment, and the roadway approach to the bridge requires only a very minor additional speed reduction at the bridge, the appropriate code would be a 6. This concept shall be used at each bridge site.

Speed reductions necessary because of structure width and not due to alignment shall not be considered in evaluating this item.

An evaluation of each element (riding quality, settlement and structural condition) is determined and recorded using the scale 1 thru 5 on the Bridge Inspection Form. However, these individual elements' evaluation does not contribute to the overall appraisal rating of this item.

History is retained for this item based on each Inspection Date - Item 90.

CODE AND SCREEN ENTRY INSTRUCTIONS

A one-digit code.
